## DETAILED ACTION

### *Status of Claims*

Claims 1-20 are allowed.

### *Election/Restrictions*

During a telephone conversation with Katsuhiro Arai on January 5, 2007 a restriction was presented and a provisional election was made without traverse to prosecute the invention of Group I, claims 1-15. Upon further consideration of the claims, there was found that no restriction is necessary and all claims have been examined.

### *Reasons for Allowance*

The following is an examiner's statement of reasons for allowance: Claims 1-20 have been allowed because the closest art fails to teach or disclose a 4,4'-dihydroxyphenyl bicyclohexene compound. The closest prior art, Rebmann et al (Journal of Chemical Research, Synopses (1996), (7), 318-319), teaches the following compound with conjugated double bonding:

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
